DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Response filed 9/19/05, with respect to the rejection(s) of claim(s) 1-4 under 35 USC §101 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of 35 USC §112.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-4 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claim 1 as currently amended recites (lines 6-7) "means for expanding the lookup table above and below said maximum and minimum values of said index and removing core loop checks".

Art Unit: 2624

This recitation appears to recite a "means" which does two things: expanding the lookup table and removing core loop checks. The latter inherently requires that core loop checks are initially present, but removed by the recited means. Applicant's disclosure does not appear to support such a means.

Allowable Subject Matter

4. Claims 5-6 are allowed.

5. The following is a statement of reasons for the indication of allowable subject matter:

Applicant's arguments with respect to claim 6, see Response filed 4/11/05 (page 9, lines 1-8, and Applicant's arguments with respect to claim 5, see Response filed 9/19/05 (page 5, line 19 - page 6, line 2), have been fully considered and are persuasive.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS

Art Unit: 2624

of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
